

CircleWorld Dating — Press Kit

CircleWorld CW · Create. Connect. Grow. Earn.

The vision

CircleWorld Dating helps adults meet people around the world through shared interests, languages and intentions — built inside CircleWorld, a global creator platform founded in Nigeria by Omijeh Omoekpen.

How it works

1. Adults 18+ create a separate dating profile; age is checked from date of birth and under-18s are blocked.
2. Discover suggests people by shared interests, languages and intentions. Members tap Like, Pass or Super Like.
3. When two people like each other, it is a match and a private chat opens.

Safety and privacy

No location is ever shown. Birth dates, email, phone numbers and wallet details are never shared. Members can report, block, unmatched, pause or delete their dating profile at any time, and reports are reviewed by moderators. Dating profiles are private and are not listed in search engines.

Boilerplate

CircleWorld CW is a global creator platform built from Nigeria, where people share videos, music and articles, meet people, build communities, and earn from eligible creator activity.
